Work Experience

Investec Bank South Africa, Johannesburg

Investment Banking Winter Internship

August 2026

- Selected as 1 of 6 interns for Investec's Investment Banking Winter Internship; built a DCF valuation for a proposed R1.1bn FMCG acquisition, deriving WACC and an implied EV/EBITDA range of 4.5–7.0x.
- Produced a 15-slide investment banking pitch deck covering valuation, competitive positioning, SWOT and regulatory risk analysis.
- Presented and defended the acquisition thesis to Investec VPs and Associates in live Q&A, securing a positive investment recommendation.

365 Finance, London

Finance Intern

May 2025 – Jun 2025

- Evaluated 3 enterprise AI platforms (DataRobot, Taktile, Worktual) across underwriting automation, risk assessment, and lead generation, delivering a prioritised implementation roadmap to senior management.
- Built ROI models across a portfolio of ~6,400 annual loans, estimating a potential 10-15% reduction in default risk and up to ~3,000 hours/year saved through partial underwriting automation.
- Identified a potential revenue uplift of roughly £150-200K from improved lead qualification, supporting data-driven recommendations on AI investment strategy.
